OFFICE MOVING <

We understand that careful management planning and a professional and methodical approach are both essential when implementing all aspects of office moving.

While every move is unique, with specific needs and requirements, our objective is to accomplish each assignment we undertake with **speed, efficiency, care and with minimum disruption.**

We provide packing specialists for expansive IT equipment and other delicate object. Furthermore our labeling system and room planners will ensure an accurate relocation of the documents and furniture in the new office. Other arrangements such as parking, security, protection of premises and valuables are also provided throughout the process.

The key to a successful move is a clear and persistent communication with the client, as well as experienced project management in order to tackle unexpected incidents.

DOOR TO DOOR SERVICE

WHAT IS EURASIA RELOCATION ?

We provide worldwide relocation services for Corporate or Individual household goods from the entire planning and organization to smooth handling packing and unpacking. We offer detailed and comprehensive offers that will fit your every need. Our services include **National and International transportation, professional packing and storage, customs clearance, qualified consulting and the use of a wide range of equipment.**

Our customers benefit from our impeccable services, which improve the effectiveness of their workforce mobility activities.

We are close partner of *Crown Van Lines*, a leading International moving company.

Our professional moving staffs are of the most experienced in the industry and will help you at every step of the way to make your move as smooth as possible.

Our strength is a combination of competitive prices, advanced logistic systems, and experienced relocation professionals. Furthermore Eurasia has its own warehouses, global qualified agents and most importantly we provide a **one-stop service for door-to-door moving.**

RELOCATION MANAGEMENT

Moving Services :

We provide a complete door-to-door service in order to move all your household items overseas or within the country.

Quite simply, this means we take care of every aspect of your move until you have moved in and settled into your new home.

Only the high quality and environmental friendly packing materials are provided.

Pet Moving :

We can help you select the best way to transfer your pet, offer helpful suggestions for its health and accommodations, and take care of any necessary shipping arrangements.

Settling In :

When Eurasia helps clients settle in a new country, relevant life and work information will be provided such as language schools, hospitals and maid services. Our service is not just about moving valuables but also to help you alleviate the stress of settling in a new environment.

EXTRAORDINARY CARE

> HOUSEHOLD GOODS MOVING

To us, everything in your home is priceless so our crew treats your move as an art form. Everything is wrapped and packed with extraordinary care in your home. **We build custom crates for particularly valuable or special items.**

Not only do we use the finest quality moving packing materials, but we also use our expertise upon deciding what materials would be most appropriate for the belonging that will be moved. For instance, we use tissue paper for silverware.

At every point we ensure everything we move receives the best protection!

To help you settling in your new home, we will unpack your household items with equal care.

STORAGE & WAREHOUSING <

Eurasia offers a full service storage solution, which includes collection, delivery at times convenient for you and we provide the people and the vehicles.

Our storage facility is completely secure and can hold any items you may need to put into storage such as antiques, furniture, or items that require seasonal storage.

Sterling storage is convenient, saves you time, saves you the hassle and saves you the hard work of self-storage.

Long term or short-term storage, our solution is flexible to meet your needs. This makes the ultimate storage solution.

PEACE OF MIND

> MOVING PROCESS

1. Pre-move Survey :

What to ship by air ? What to Ship by sea ?
What to put into storage, or perhaps disposed of ?
What to require special handling or special service needs ?
Do you have a company allowance limitation ?
Do you have travel plans and required timing ?
How about your pets ?

2. Quotation & Accepting :

The estimated volume or weight of the shipment
Extra charge for special services
Pay attention to what is included and excluded
If there is a large cost difference, is it due to a volume discrepancy ?
Professionalism and advantages of the moving company

3. Scheduling & Packing :

Once you have approved the quotation, we will work with you to establish the best date for your move
Make sure your passport, airplane tickets, keys, and other important valuables are stored in a safe place
Show the supervisor where to start and give him a brief tour of the house
Point out those items that require special care of crating
Do not allow jewelry, expensive valuables, money, or valuable collections be packed. You should keep such items with you as they may not be covered by insurance
Boxes packed by you should be left open and sealed by our staff, otherwise such boxes will be listed as "PBO" (packed by owner) which may cause some problems with customs authorities and insurance companies
Walk through your home after packing to ensure nothing was forgotten

Customs Clearance and Freight

Certain documents will be required for export and import customs clearance procedure. Our surveyor or customer service representative will explain the details beforehand
Loading and transporting your shipment to sea/air port for dispatch
Export customs clearance formalities and documentation

Destination Service and Delivery

Import documentation and customs clearance
Delivery to your residence
Unloading, unpacking and placement in proper rooms
Debris removal on day of delivery
Container Return

Insurance

Prior to packing, please make a detailed inventory with the value for replacement
Insurance extension for storage if required
Take photos of your household. This is especially important for valuable antiques or artwork
Report damages and submit claims in case of accidents

Quality Control

Staff training
Performance measurement
Client may fill in a feedback form on packing and delivery day
Analysis and review
Improvement and enhancement
